Hey Everyone,

All Hands on Deck is the P8 Sterling Focus! 11-2, 5-8

OSAT suffers when 1, 2, or even 0 people are on the line. Why do we do this?

- Should more spoons, prep items, or sauce bottles go up front?
- Do we wash dishes too early?
- Are we uncomfortable stirring, flipping, and wiping the line while waiting for customers?

This causes:

- **Customers waiting:** OLOs piling up, customers waiting for someone to be on Hot
- **Food to look worse:** Bean Pans need flipping, ground beef needs stirring, and the line needs wiping
- **Customer Service out the window:** We're focused on catching up putting gloves on, not smiling or interacting with the customer
- **Goals to take a back seat:** How can we get text signups or sell MVMs is we constantly struggle to catch up?

It is Week 2 of 4 for this focus. Flood the group chats, have conversations, and let's really focus on this and put ourselves in the guests' shoes. Every single person up front 11-2 and 5-8, no exceptions.
