TalentReef Tip:

The ad-hoc background check feature can be helpful for applicants who are being promoted and don't need to submit a new application. Please remember that these ad-hoc files can not be hired.

Background checks are helpful to ensuring you hire the most qualified applicants. If you would like to manually add a background check for an applicant:

- Click "**Jump To**".
- Select "**Background Checks**", then "**Show All**".
- Click the "**New**" button in the top right of the screen.
- Select "**Pre Hire**" from the drop down menu.
 - To see this option you must have the "**Create Ad Hoc Background Check**" user permission. If you do not have this ability and you would like to, please contact your administrator for help.
